These are just a few of the exciting and amazing games that are available for you in this upcoming Event Auction. We have many titles from a variety of consoles ready to help you begin building or expand your Video Game collection.

FANTASTIC FOUR #1

The Marvel Universe, as we know it, was born with Fantastic Four #1. Featuring the first appearances of Mr. Fantastic, the Invisible Woman, the Human Torch, and the "ever-lovin' blue-eyed Thing," Marvel was ready to re-enter the superhero genre full-throttle. Disney's purchase of Fox Studios has given Marvel back their rights to the Fantastic Four properties so expect another silver screen reboot in the MCU in the coming years, we are certain that the third time will be a charm. Silver Age Marvel keys like this one are always in high demand and there is no sign of letting up soon.

Overstreet Guide 2020 F/VF (7.0) value = \$29,400.

FANTASTIC FOUR #5

Dr. Doom, according to Jack Kirby, was modeled after the Middle Age concept of Death. Kirby claimed that Doom, a genius inventor, sorcerer, and leader of Latveria, is inherently evil, and as a result of his facial disfigurement and hatred for Reed Richards, he lashes out against the world in perpetual vengeance. He is one of comics' greatest and most complex villains ever created and he makes his debut here in Fantastic Four #5. Doom is an incredibly popular villain in the Marvel stable with a large following and scores of avid collectors eager to grab every appearance of the hooded menace, and this copy is sure to be snatched up by the most ardent of them all.

Overstreet Guide 2020 NM- (9.2) value = \$28,000.

STRANGE TALES #110

Strange Tales issues have been heating up in popularity over the past few years, and thanks to the influx of new Marvel movie announcements, it has been increasingly difficult to keep this issue in stock in any grade. This is one of the toughest Silver Age key issues to find, likely due to a small print run, but that hasn't stopped collectors from snapping up copies as quickly as they can. With the success of Benedict Cumberbatch as the good doctor in "Doctor Strange" and the upcoming sequel "Doctor Strange in the Multiverse of Madness," this book is sure to reach new heights in popularity!

Overstreet Guide 2020 NM- (9.2) value = \$20,000.

SUPERMAN #1

The first name in superheroes has always been Superman. “Look, up in the sky, it’s a bird, it’s a plane, it’s...Superman!” Those words identified the character for decades and the big red “S” on his chest is one of the most-easily-recognized symbols in the world. Created by Jerry Siegel and Joe Shuster, Superman has enjoyed decades of popularity and has been featured in cartoons, serials, movies, television shows, and pretty much anything else you can put a price tag on. As one of the top Golden Age keys, this issue features Superman’s origin story, a must-read for Man of Steel zealots.

Overstreet Guide 2020 G/VG (3.0) value = \$169,500.
